**High School Senior Given Scholarship**

M. D. Schwartz, president of the Pacific Smelting co., announced this week that Laurence Lee George, 17 year old graduating senior from the Torrance High school, has been awarded the first Pacific Smelting Foundation educational scholarship.

A scholarship plan was set up this year by the Pacific Smelting foundation exclusively for graduating seniors in the Torrance School system who desire to enroll in a university to obtain a scientific or engineering degree.

The recipient of this scholarship is chosen on the basis of scholastic record, character, citizenship, leadership, aptitude for a science or engineering career and general educational outlook.

The scholarship provides George with \$500 a year for five years or a total of \$2500 to assist him in paying his college expenses. He is permitted to attend any accredited college or university of his choice. He intends to enter the Engineering School of the University of California at Los Angeles.

Laurence is the son of Mr. and Mrs. Robert Lee George, 120 Via Los Miradores, Redondo Beach. He has been active as a Sea Explorer in the Boy Scouts, on the Torrance High tennis team, Scholarship Society, Future Engineers, Senior Choir, Business Leaders of America, and in the Methodist Youth fellowship.
